poly-s

Neutral floor cleaner with protective effect for robot vacuums and mops

HAAAS®
Hygiene activities in all spaces

Household and professional use · Robot · Scrubber-dryer · Mopping · Intensive cleaning

CHARACTERISTICS

Pleasantly scented cleaner with neutral pH, free from alkalis, soaps and waxes. Cleans any water-resistant surface easily and effectively. Contains low-molecular-weight polymers that are renewed with each routine wash without building up layers: leaves a transparent, glossy microfilm. Especially recommended for the maintenance of treated floors. No rinsing required.

PROPERTIES (SDS section 9)

Appearance	pink liquid
Odour	lavender
pH (concentrate)	approx. 7
pH (1% solution)	approx. 7
Relative density	1.01
Flammability	non-flammable

FIELD OF APPLICATION

All water-resistant surfaces, especially glossy ones: PVC, linoleum, tiles, granite, protected or unprotected marble. Sealed parquet only with a freshly dampened, well-wrung mop or a damp cloth. On delicate surfaces, test first on an inconspicuous area.

COMPOSITION (Regulation (EC) No 648/2004)

Less than 5%: phosphonates, anionic surfactants. 5–15%: non-ionic surfactants. Perfumes (Coumarin, Linalool), colourants. Preservatives: Methylchloroisothiazolinone, Methylisothiazolinone.

DIRECTIONS FOR USE

10 ml	max. 50 ml	25 ml	50–100 ml
per 4 L water tank	in 10 L of water	(1 dose) in 8–10 L of water	in 10 L of water, depending on soiling
Robot vacuum & mop	**Scrubber-dryer**	**Mopping**	**Intensive cleaning**

Dilution 1:320–1:400 for routine cleaning. Consumption: approx. 0.1 ml/m² for damp mopping; 0.25 ml/m² for intensive cleaning. Let dry before walking on the surface. No rinsing required. Use only diluted; do not mix with other products. In robots: guide dose 2.5 to 3.1 ml per litre of water; before use, check your robot manufacturer's instructions, as too much concentrate may leave marks. In scrubber-dryers, also follow the machine manufacturer's instructions. Devices not included.

LABEL ELEMENTS (Regulation (EC) No 1272/2008)

GHS05 · **DANGER** **H318** Causes serious eye damage. **EUH208** Contains Methylchloroisothiazolinone, Methylisothiazolinone, 4-tert-butylcyclohexyl acetate. May produce an allergic reaction. **P101** If medical advice is needed, have product container or label at hand. **P102** Keep out of reach of children. **P280** Wear protective gloves/eye protection/face protection. **P305+P351+P338** IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. **P310** Immediately call a POISON CENTER/doctor. **P501** Dispose of contents/container: product residues and non-empty packaging at a hazardous waste collection point; empty packaging in separate plastic collection, as per local regulations. **Contains:** Oxirane, 2-methyl-, polymer with oxirane, mono(2-propylheptyl) ether. **In case of accident:** 112 or Poisons Information Centre (Ireland), +353 1 809 2166 (8 am–10 pm).

STORAGE AND DISPOSAL

Keep in the original container, tightly closed, in a well-ventilated place away from direct sunlight. Keep out of reach of children. Do not pour the concentrate down the drain; take product residues to a hazardous waste collection point. The diluted solution, used as directed, can be disposed of via the household drain. The completely empty packaging (PE-HD 02 bottle, PP 05 cap) goes to separate plastic collection.

Shelf life: until 12/2035 (on the label: EXP 12/2035); the batch is printed on the pack.

PACKAGING AND IDENTIFICATION

Packaging	1 L PE-HD bottle, PP cap
Case	6 bottles × 1 L
Pallet	76 cases
